CHAIRMAN'S MESSAGE

Dear Devotees,

On behalf of the Hindu Community and Cultural Center (HCCC), I wish you and your family a very Happy New Year. New Year is our biggest function every year and New Year 's Day 2011 will be the first one since the City's approval of the Conditional Use Permit (CUP) on May 10th, 2010. We are working hard to make this function very successful following all of the City's rules imposed for this event.

HCCC has conducted several functions including Adhika Masa Brahmotsava, Ganesha Nimajjanam, Navaratri Brahmotsavam, Saraswathi Pooja, Durgashtami, Karva Chauth, and Vaikunta Ekadasi. Currently, we are celebrating Andal Abhishekham (daily during Dhanurmasa) until the middle of January 2011. We thank all the volunteers, coordinators, and sponsors for making these functions a grand success.

HCCC has acquired a 20 foot strip of land from the City. This strip is required to provide a buffer zone in the future for Phase 1 construction of the east parking lot. This project was started in 1998. The deed was signed by both HCCC and the City in the 2nd week of December 2010. We are receiving the final deed and Lot Line Adjustment Certificate of Compliance from the title company.

Silver Mantapa preparation has resumed. Making very good progress and expected to complete within the next few months for Samprokshana. The Silver Mantapa project was started in 2002 and has had multiple design revisions. The completed Silver Mantapa arrived about a year ago. There were two silversmiths that provided advice on the implementation. There has also been lots of input coming from devotees on the best use of the Silver Mantapa. Please contact me if you are one of the sponsors of the Silver Mantapa.

Last year, the HCCC submitted a Master Plan to improve the facilities, such as, extend the assembly hall so that devotees can eat indoor, relocate the kitchen to the south of the assembly hall to minimize noise to the neighbors, build an administration building replacing the trailer, and a provide a paved parking lot & landscaping to eliminate dust. The City of Livermore approved the plan on May 10th 2010 with some conditions. We request devotees to maintain silence outdoors before 8 AM and after 8 PM on temple premises and also request cautious driving which results in a safer neighborhood for residents. There are new traffic signs posted inside and around the temple. HCCC's Master Planning Committee (MPC) has submitted fourth round of detail designs to the city for the final construction permit. I request devotees to strictly follow the temple timings and traffic rules.

Drawings for phase 1 of the Kanaka Durga Prayer Hall (Temple) building were not approved when we submitted them a couple of months ago. The Board of Directors and Master Plan Committee worked with the city and spent an enormous amount of time to redesign the Kanaka Durga building plans and fit them into the city requirements. Finally, the city approved the Kanaka Durga Prayer Hall (Temple) building permit. This is the first major mile stone for our future phase I construction.

The Annual Fundraising Dinner was planned to be on December 11th, 2010 and later was moved to an early part of next year (Please check the temple web site for the actual date and venue). A team of volunteers are working on this assignment. We are planning to have a standing fundraising committee to continue efforts to raise the required funds to support phase one construction. We depend on your generous donations so that the master plan can become a reality.

Volunteers and function coordinators are instrumental in conducting all HCCC functions successfully. We thank devotees, sponsors, volunteers, youth ambassadors, and youth volunteers for their continued support in providing quality services to all devotees at HCCC facilities. Please visit the temple web-site, www.livermoretemple.org, for up-to-date information.

Prasuna Reddy Dornadula, Chairman, Board of Director, 2010-11, HCCC

Key Events Celebrated

Skanda Shashti

VetriVel Muruga VeeraVel Muruga. The eight day Skanda Shashti function was started on Nov 6 and concluded on Nov 14. It was conducted really well with great enthusiasm by the organizing volunteers and the temple priests. The Abhishekam and Alankarams were very spiritual. Vibhuthi, Chandanam, Rajatha, Muthangi, Pushpa Alankarams were great and majestic. The beauty of the Lord Murugan was so powerful all along.

went very well. Music

and daily songs by many devotees was also pleasing to the ears. HCCC thanks all the Murugan devotees who have guided and supported through this entire program. Kavadi preparation is a long involved process and Murugan devotees came on Thursday and Sunday at 7AM to complete this task. HCCC thanks all volunteers who helped in preparation and serving of Kalyana Bhojanam on Nov 14. Thanks to all the ladies who helped with Mala volunteering and those who helped with Bakshanam preparation.

Annual Temple Calendar

Compiled by Janakiram Kaki, Publicity Chair, EC

HCCC brings out an authentic and beautiful calendar every year. It is considered authentic by many priests and devotees in Northern California and elsewhere in US. The calendar has been prepared for North America based on San Francisco timings (PST/PDT). The festivals and special Puja days are based on this timing and may differ from the respective dates in India and elsewhere in the USA. It provides the readers variety of information such as month (lunar and solar), Thithi, Nakshtra, sun rise, sun set, Rahu Kalam, festivals, temple functions, periodic Pujas performed in the temple, Vratas, list of key events, Azhwar birthdays, years per Hindu tradition, key to read the calendar, and terminology used in the calendar. For easy reading, symbols are used to designate the days when Vratas will be performed.

In the western calendar, the day begins past midnight, whereas in the Indian Panchang, the day begins at sunrise. The Nakshatra (star) and Thithi prevailing at sunrise for the day are given followed by the ending times. For this reason, the timings are given in a 30 hour format. For example, a time of 24:00 on Jan 1 is equal to 12:00 AM on Jan 2, a time of 27:00 on Jan 1 is equal to 03:00 AM on Jan 2, and a time of 30:00 on Jan 1 is equal to 6:00 AM on Jan 2.

For every month, on the top it shows beautiful picture of god or goddess. Most of the pictures you see in the calendar are the pictures of temple's Utsava Moorthys in various Alankarams taken during various events conducted in the temple. It is a feast to watch the temple deities in beautiful Alankarams done by our creative priests.

For accuracy, computer program is used to calculate Rahu Kalam start and end times for each day of the year. Rahu Kalam calculations are performed using sun rise time, sun set time, and the day of the week.

The work on next year's calendar starts in Aug of every year. It takes 4 months to complete the work. The calendar is available for devotees in middle of December every year. It is estimated that several hundreds of hours of time of Panchanga Kartha, priests, experts, publicity team, layout designer, volunteers who proof read, staff, and printer goes in to making the calendar every year.

A brief explanation is given below of some commonly used terms such as Panchang, Solar and Lunar month, Nakshatra, and Thithi. The explanation is to help better understand the calendar and is not meant to be a complete description of the Panchang.

Panchang means the Pancha Anga or five attributes to a day. These 5 attributes are Vara (Day), Thithi (Lunar Day), Nakshatra (Star), Yogam (Luni Solar day) and Karana (semi lunar day). The month is either the Lunar (Chandra Mana) or Solar (Soura Mana). Once the Panchang for a particular day is known, festivals and functions can be determined based on the conditions necessary for the particular event. The Panchang is also used to determine auspicious days and Muhurthas for performing various functions. The Panchang is based on the positions of the Sun, Moon, and Earth in the backdrop of galaxies. It is also based on the rotation of the earth around the sun and moon around the earth. At the end of one year, the relative positions of the sun, earth, and the stars will be the same as at the beginning of the year. Note that the location of the Sun and the moon relative to the earth is the same irrespective of your location on the Earth.

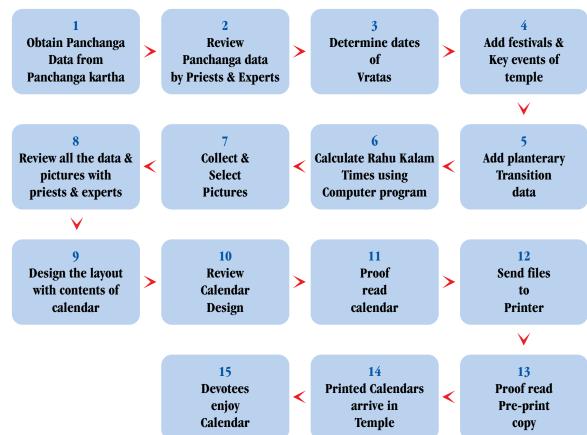

The Solar month begins when the sun leaves one Rasi (Zodiac sign) and moves into the next. The exact beginning of the solar month depends just on the location of Earth and Sun in the backdrop of galaxies and not on the self-rotation of the earth i.e. day or night. The names of the Solar months follow the names of the 12 signs of the Zodiac - Mesha, Vrishaba, Mithuna, Karkataka, Simha, Kanya, tula, Vrischika, Dhanur, Makara, Kumbha and Meena.

The Lunar month is normally the time that the moon takes to revolve around the earth (or) the period between two successive new moons. More precisely, this is the time it takes the moon to be at the same relative spot with respect to earth and sun. The names of the lunar months are Pushya, Magha, Phalguna, Chaitra, Vaishaka, Jyeshta, Aashada, Sravana, Bhadrapada, Aswayuja, Karthika and Margasira.Because of the differences in the number of days in a lunar and solar month, Adhika Masa or extra lunar month occurs about once in 3 years. The actual month is called Nija masa (actual) and the extra month is called Adhika masa.

The path of the moon around the earth is divided into 27 segments or Nakshatras (Na - synonym for Moon + Kshetra - Mansion = Nakshatra). The Nakshatra changes when the moon leaves one segment and enters the next. These 27 segments or stars are Aswini, Bharani, Krittika, Rohini, Mrugasira, Arudra, Punarvasu, Pushya, Ashlesha, Makha, Poorva Phalguni, Uttara Phalguni, Hasta, Chitra, Swati, Visaka, Anuradha, Jyeshta, Moola, Poorvashada, Uttarashada, Sravana, Dhanistha, Satabisha, Poorva Bhadra, Uttara Bhadra, and Revati.Pushya, Aslesha, Makha, Poorva Phalguni, Uttara Phalguni, Hasta, Chitra, Swathi, Visaka, Jyeshta, Moola, Poorvashada, Uttarashada, Sravana, Dhanishta, Satabhisha, Poorva Bhadra, Uttarashada, Sravana, Dhan

There are 14 Thithis between every new moon and full moon and vice-versa. The names of the Thithis are: Amavasya (New moon day), Prathama, Dwitiya, tritiya, Chaturthi, Panchami, Shashti, Saptami, Ashtami, Navami, Dasami, Ekadasi, Dwadasi, trayodasi, Chaturdasi, Poornima (New Moon day). After Poornima, these Thithis repeat and end in the next Amavasya thus completing the cycle. Also, Thithi and Nakshatra being geocentric phenomena, end at the same time in all parts of the world. The day of observance of any Thithi in the calendar is based on traditional convention for respective Thithis. The prevailing Nakshtra of a day is the Nakshtra at the time of Sun rise, with at least 2 Gathikas/Nazhikas in that day.

In this article, I would like to make the readers aware of the process to bring out this popular calendar. Picture is worth thousand words. So, let me describe the 15 step process in the form of a flow chart.
